► **NOTE:** These statistics reflect all 911 calls placed directly to Central Dispatch, in which officers responded. However, the number of actual incidents cannot be determined from this report, because officers from multiple departments sometimes respond to the same incident. In addition, incidents are defined and logged according to how they are initially reported by the 911 call. (Example: A shooting or stabbing victim could later die, which would then actually be a murder.)

• This report shows 3 domestic violence related murders in 2006; however, there was only 1 murder -- Rene Smith was stabbed and killed in her home by her son, Tyler, with a sword 2/23/06. (Law enforcement officials from multiple agencies were dispatched to this incident.)
