► **NOTE:** These statistics reflect all 911 calls placed directly to Central Dispatch, in which officers responded. However, the number of actual incidents cannot be determined from this report, because officers from multiple departments sometimes respond to the same incident. In addition, incidents are defined and logged according to how they are initially reported by the 911 call. (Example: A shooting or stabbing victim could later die, which would then actually be a murder.)

• **Does NOT reflect 3 domestic violence related murders in May 2007.** Omar Mora shot and killed Harpal Singh (manager of the Warsaw Phillips 66 station) and then went to his own Warsaw residence and murdered his wife, Lisa. That same week, 2-year-old Samantha Muchowicz was murdered in her home at Ridinger Lake/Pierceton by her mother's boyfriend.
